

January 5, 2015

United States House of
Representatives
Washington, D.C. 20515

Dear Representative:

On behalf of the members of the Susan B. Anthony List, I am writing to urge the House of Representatives to pass the Senate-amended version of H.R. 3762, Restoring Americans' Healthcare Freedom Reconciliation Act of 2015.

In addition to repealing the major portions of Obamacare, this bill would effectively defund Planned Parenthood and other abortion businesses of taxpayer funding under several mandatory programs such as Medicaid.

Planned Parenthood and other abortion businesses do not need or deserve taxpayer funding. Most recently, undercover videos show that Planned Parenthood, America's largest abortion business, is engaged in unethical and possibly illegal abortion practices connected to the trafficking of unborn children's organs for profit. A credentialed forensic analysis firm confirmed that these videos have not been manipulated or deceptively edited.

No trace of concern for women's health appears in these videos. Instead, the videos detail Planned Parenthood's willingness to manipulate abortion methods – possibly even using the banned partial-birth abortion procedure – to more easily obtain hearts, lungs, brains, and other organs to be sold to tissue brokers. This, despite the fact that mothers are induced to sign a consent form stating that the abortion method will in no way be changed to procure these body parts. Further, the videos show that this manipulation of abortion methods can result in babies being born intact, with a heart beating or able to be restarted, and therefore alive.

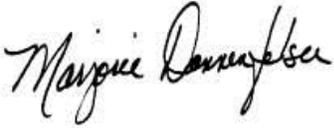

These videos offer just a glimpse into the abortion industry's day-to-day horrific practices. Over one million abortions are performed annually in the United States, with nearly 330,000 occurring in Planned Parenthood facilities, all the way up to 24 weeks of pregnancy, past the time when recent studies show that a substantial percentage of these children can be saved if treated with the best techniques of modern perinatal medicine. Regardless of whether Americans identify as pro-life or pro-choice, we should all be able to agree that taxpayer dollars should not be subsidizing an already cash-flush industry.

Instead, these tax dollars would be put to better use at local community health centers, which provide all the same health services Planned Parenthood does (and usually more), but do not abort the lives of unborn children and callously harvest their body parts for profit.

Susan B. Anthony List and its members across the nation are proud to endorse the Restoring Americans' Healthcare Freedom Reconciliation Act of 2015 in order to end Medicaid funding of Planned Parenthood and other abortion businesses. We hope that sending a bill that defunds Planned Parenthood and other abortion providers to the President's desk will help educate Americans and

encourage them to watch the videos about the atrocities committed by Planned Parenthood. We urge its swift and unanimous approval.

Sincerely,

A handwritten signature in black ink that reads "Marjorie Dannenfelser". The signature is written in a cursive, flowing style.

Marjorie Dannenfelser
